To our Route 102 and Route 480 riders:

CCT is pleased to announce that on Tuesday, September 2, 2008 we will begin construction of the new Acworth Park and Ride lot. Construction will include expanded parking, improved lighting, and the addition of a new passenger waiting area. When completed in early 2009, the lot will expand parking from the current 274 spaces to 496 spaces.

To minimize the impact on our passengers during construction, we will utilize a three phase construction plan with the lot remaining open during construction:

Phase 1: While Phase 1 is undergoing construction, phases 2 and 3 will remain open resulting in 274 usable parking spaces.

Phase 2: When Phase 1 is complete, demolition and construction of Phase 2 will begin and Phases 1 and 3 will be open resulting in approximately 360 usable parking spaces.

Phase 3: When phase 2 is complete, demolition and construction of Phase 3 will begin and Phases 1 and 2 will be open resulting in approximately 277 usable parking spaces.

We appreciate your patience during this construction.

Project updates will be provided as new information becomes available.
